

The Inaugural

Exhibition, Conference & Awards 2007

Theme: Innovation & Research For A Better Competitive Europe & Beyond

Kempinski Hotel Bristol, Berlin, Germany, 14 – 16 June 2007

Following the successful Launch of the European Union Women Inventors & Innovators Network (EUWIIN) at the European Parliament in Brussels on the 6 February 2007, we cordially invite you to join us at Europe's new leading Conference and Award recognition for increasing the pool of diverse human resources by moving towards wider inclusiveness and the exchange of knowledge in areas such as intellectual property rights, education, entrepreneurship, ICT, access to finance, international trade, equity & commercialisation. Over 300 Attendee's expected from SME Businesses, Major Corporations, Educational Institutions and Government Agencies including Women's Groups from across Europe.

The conference and awards offers valuable opportunities for information exchanges and networking opportunities with many exceptional creative minded people from various backgrounds.

Join us as we identify key areas of priority for effective policy goals, such as the transfer of knowledge between the science & business communities, effective support for small businesses as key sources of innovation: improvement in the access to sources of support & knowledge relevant to innovation providers: the need to draw together case studies that reinforce the power of individual role models & mentors in promoting innovation & enterprise.
